

## **Bargaining Session #8**

February 24, 2023

We had our eighth bargaining session since CWA was certified in June 2022 and negotiations began in August 2022. CWA raised the issue of work-from-home for certain Raven QA employees. The Company explained that it would not agree to any contract that limits its ability to determine where employees will work. There was no agreement on remote work. The parties also discussed job progression, merit increases, and quarterly bonuses. The parties will next meet for bargaining on April 11-12.
